I agree with your advice and support the program's decision on that. Thanks David.

Subject: RE: Energix

Are we following up on the undelivered items?

OTO is stating that Energix wants an in-person meeting to reset and make sure everyone is on the same page. Without the appeal dropped, counsel would have to be present if we entertained the request and I don't think we want to be negotiating penalties with Govs office present.

OCC have any thoughts? I will speak with DS Ryder about this later today.
Thank you,
Erin

Subject: RE: Energix

Site was inspected on May 7 (report completed and sent on about May 21) and violations were noted for construction and maintenance of the sediment basins and maintenance of some E&S controls. DEP requested that Clermont respond within 7-days with an evaluation by a certified professional to determine that the basins were designed and constructed consistent with the E&S Manual, and make necessary design and/or construction modifications to meet requirements. DEP also requested that within 7-days Clermont Solar provide copies of weekly site inspection reports completed for the period of September 2025 through April 30, 2026. We have not received a response to this request.

Clermont's appeal has not been withdrawn.

Thanks, Ron

Hello,

What's the status of Energix site in McKean County and the appeal?
Thanks,
Erin
